belief that the persons most interested In the business prosperity of the country were endeavoring to bring about national business disaster. The result was a range of prices shortly before the close of the stock exchange yesterday afternoon which was absurdly low, even if the railway rate problem was to reif the railway rate problem was to remain unsettled after all.

Prices of stocks opened this morning at an advance which ran from one to four points in the leading issues. After this realizing sales sent quotations down from one to two points, but again the market rallied decisively for a second time, re-ceded, but to a much less extent than at first, and closed with an active buying movement in progress at the day's high-ast figures.

# The Safest Investments

Are those that do not fluctuate during disturbed conditions of the money or stock markets. First deed of trust notes (first mortgages), well secured on real estate in the District of Columbia, constitute "gibedge" investments. They do not depend upon the financial responsibility of individuals or corporations for sheir stability, and are exempt from taxation as personal property. We can supply such investments in amounts from \$500 upward. Send ice booklet, "Concerning Loans and lovestments."
